AC CHARGING STATION WITH SMART POWER SHARING

4-OUTLET AC CHARGING STATION

4 vehicles · 22 kW

Charges four vehicles from a single footprint — two front and two side outlets — with smart power distribution, session-based billing and remote health monitoring. A 10.1" touchscreen and RFID / QR access make it ready for public and semi-public sites.

4 vehicles	**22** kW	**10.1** "	**IP54**
Charging at once	AC, dynamically shared	Touchscreen	Metal body

KEY FEATURES

Four outlets
2 front + 2 side tethered Type 2.

Dynamic power sharing
Supply is shared across active outlets, e.g. 22 kW to one vehicle or 11 + 11 kW to two.

ChargeOS integration
Session-based billing and remote health monitoring.

Easy start
RFID card or QR code from the touchscreen.

Robust enclosure
IP54-rated metal body with illuminated canopy.

APPLICATIONS

- Workplaces
- Retail and malls
- Hotels and hospitality
